Praise for Tales with Tails

There is intelligent life on this planet – and some of it is four-footed! This collection of stories is surprising, sometimes funny, and always thought provoking...

— Denise Lewis Patrick

Author of Ma Dear's Old Green House

The Adventures of Midnight Son, and Red Dancing Shoes

...an excellent collection of tales that teach the reader there are many ways to see the world. It also has a humorous touch when we see human frailties exemplified in the natural world.

— Sandra Kennedy Bright, Library Media Consultant

Director (Emeritus), Office of School Library Services

N.Y.C. Department of Education

...an elegant collection of stories and poems...should keep young readers returning to this volume for inspiration and entertainment!
